PROFESSIONAL SUMMARY

Senior iOS Developer with 9+ years of experience specializing in system design and architecture of scalable mobile applications using Swift, SwiftUI, and UIKit. Proven expertise in implementing Clean Architecture, modularization, and MVVM to build highly maintainable and testable codebases. Strong background in designing reusable components, managing complex data flows, and optimizing performance for enterprise-scale applications. Experienced in leading architectural decisions, mentoring developers, and collaborating with cross-functional teams to deliver secure, high-quality solutions aligned with client and business goals.

TECHNICAL SKILLS

Languages: Swift, Objective-C, React Native, TypeScript, JavaScript, ReactJS

iOS Development: SwiftUI, UIKit, AutoLayout, Combine, CoreData, Realm, CoreML

React Native/Web: React Hooks, ES6, Context API, Redux Toolkit, Fetch/Axios, Expo, React Router

Architecture & Design: Clean Architecture, MVVM, MVVMC, MVI, VIPER, Modular Architecture, SOLID, Dependency Injection, Scalable System Design

Concurrency: Swift Concurrency (async/await, Actors), GCD, OperationQueue

Networking & Real-Time: REST APIs, GraphQL, URLSession, WebRTC, VoIP, CallKit, PushKit, BLE, Push Notifications, Twilio

Security: OAuth 2.0, SSL Pinning, Keychain, Biometric Authentication, Secure Storage

Tools & CI/CD: Git, GitHub Actions, Fastlane, TestFlight, App Store Deployment, JIRA

Testing & Performance: XCTest, Snapshot, Performance Optimization, Crash Analysis

AI-Assisted Development: Cursor AI, GitHub Copilot, OpenAI Codex

PROFESSIONAL EXPERIENCE

Accenture | May 2026 - Present | Pune, India

Associate Manager - iOS

- Successfully onboarded as Associate Manager and completed intensive technical and consulting training to ensure readiness for high-impact iOS client projects.
- Gaining exposure to enterprise mobile development standards, code quality practices, and cross-functional collaboration methodologies.
- Completed structured training in React.js and modern web application development.

Tata Consultancy Services (TCS) | June 2025 - September 2025 | Indore, India

Assistant Consultant - iOS

- Involved in onboarding and architectural understanding of a US-based banking iOS application, with exposure to Clean Architecture, modular design, and enterprise security standards. Collaborated with cross-functional teams across multiple time zones, aligning with project processes and development best practices in a regulated BFSI environment.

Globant India Pvt. Ltd | July 2023 - May 2025 | Indore, India

Senior Software Engineer - iOS

- Architected comprehensive system designs for modular iOS applications using Swift, SwiftUI, Combine, Realm, UIKit, MVVM, and Clean Architecture, ensuring scalability and long-term maintainability at an enterprise level.
- Designed and developed a reusable component library that streamlined development workflows and improved feature delivery efficiency across the team.
- Optimized application performance using Instruments, multithreading, and Swift Concurrency (async/await, Actors), reducing crashes and improving UI responsiveness.
- Integrated RESTful APIs with secure token-based authentication, and managed the end-to-end App Store submission and release process.

Diverse Lynx Pvt. Ltd (Client: TCS) | December 2020 - June 2023 | Bangalore, India

Senior Software Engineer - iOS

- Architected and delivered an enterprise-grade iOS application, defining client-side system design aligned with distributed backend services, optimizing for scalability, performance, and high-concurrency scenarios.
- Designed secure authentication architecture using Microsoft Azure AD and MSAL, implementing OAuth 2.0, MFA, and resilient token lifecycle management across network boundaries.
- Led end-to-end VoIP integration using Twilio, designing token orchestration, call flow handling, and backend interaction for reliable real-time communication.
- Defined modular system architecture using Clean Architecture and SOLID principles, enabling reusable components, fault-tolerant networking (caching, retries), and maintainable large-scale codebases.

Mobiweb Technology Pvt. Ltd | July 2019 - April 2020 | Indore, India

iOS Developer

- Enhanced application reliability by implementing caching, retry mechanisms, and fault-tolerant networking to handle live event traffic spikes.
- Integrated secure payment gateways, ensuring smooth transaction flows and compliance with platform standards.
- Managed end-to-end App Store release process, including build configuration, deployment, and post-release monitoring.

MMF Infotech Pvt. Ltd | January 2016 - Jul 2019 | Indore, India

iOS Developer

- Created production-grade VoIP and real-time communication features using WebRTC, CallKit, and PushKit.
- Developed real-time chat systems, push notifications, and GPS tracking functionalities using Apple Maps and Google Maps for transportation workflows.
- Delivered stable, high-quality applications that supported concurrent users and real-time operations through various production releases.
- Gained hands-on exposure to React Native development, component-based architecture, navigation, API integration, and mobile development best practices.

NOTABLE PROJECTS

- **LA Clippers Mobile App (Sports):** Official NBA team app featuring live scores, news, ticketing, and multimedia. Stack: Swift, SwiftUI, REST APIs, Combine, Structure Concurrency.
- **Site Access Management (Enterprise):** Access control app for Melbourne Water Corporation. Stack: Swift, UIKit, SnapKit, BLE, MSAL, AzureAd, Twilio.
- **SpeakAme (Communication):** Real-time platform supporting chat, audio, and video calls. Stack: Swift, UIKit, QuickBlox, WebRTC, CallKit, PushKit.
- **Bike4Everything:** Developed a real-time driver–rider communication platform. Stack: Swift, UIKit, Apple Maps, APNS, Paytm.
- **FSL11 Fantasy App (Sports):** High-concurrency fantasy sports platform with real-time data, payments, and live leaderboards. Stack: Swift, UIKit, Socket Programming, Rest APIs, Cashfree
- **US Bank (Banking):** iOS application for US banking domain with secure BFSI-compliant architecture.

EDUCATION

Master of Computer Applications (MCA)

Acropolis Institute of Technology and Research, Indore | 2015
